*Index (with partial Full Text): (1991:Oct. 25)* - The CQ Researcher explores a single "hot" issue in the news in depth each week. Topics range from social and teen issues to environment, health, education and science and technology. There are 44 reports produced each year including four expanded reports. Every 12,000-word report is written by an experienced journalist and features comments from experts, lawmakers and citizens on all sides of every issue. Numerous charts, graphs and sidebar articles -- plus a pro-con feature, a chronology, lengthy bibliographies and a list of contacts -- round out each report.

Cyber Bullying Searchable Information Center

According to the National Crime Prevention Council, 43% of teens have been the victims of cyber bullying in the past year.

To help parents, educators, and others better understand, prevent, and take action against this growing concern, ebrary is subsidizing a collection of e-books on cyber bullying. Additionally, ebrary employees have uploaded a number of government documents from the Pew Internet & American Life Project, U.S. Department of Justice, and other organizations with DASH! (Data Sharing, Fast) a do-it-yourself e-publishing feature of many ebrary products.
