Question 1

- I worry about losing track of my resources. What do you recommend?
- Zotero – (zo-TAIR-oh)
  - We created a guide for you to learn how to use Zotero:
  - http://law.hawaii.libguides.com/zotero
Question 2

- Where can I find information on the issue of ancestral lands of Native Hawaiians and the Maori of New Zealand?

- eHRAF - Human Relations Area Files
  - Use Advanced Search
  - For Culture,
    - Open “Oceana” and select “Polynesia”
    - In your search box, you can uncheck any culture you wish.
  - For Subject,
    - Open “Economy, Food, and Resource Exploitation” and select “Property”
    - Uncheck any subject you don’t want; or
    - Browse subjects (example uses the browse feature).

Another complication followed the conversion of the fluid use of land by the community to the fixed ownership by individual families. In former times, large and small families were merged together and individuals in each generation enjoyed equal rights to the usage of tribal territory. Now, the family is confined to a fixed portion with surveyed boundaries beyond which it cannot extede. Though the family may increase in number in each generation, the plot of family land cooperates this same location and area by generation labels.

Select All

In enacting laws to give expression to the customary rights and titles, complications were bound to occur. The Maori, as a tribe, inherited shares in the different blocks that formerly comprised the tribal territory. In former days, his ancestors had harvested and cultivated here to-day and there to-morrow with ease and convenience. In the present age, scattered holdings of a few acres here and a few acres there cannot be efficiently worked by the same owner. If it were possible, however, to combine the scattered shares into one holding, the result would be a more efficiently sized farm which could be worked with profit. To this end, Ngata worked out a scheme of consolidation whereby owners could exchange their shares in different areas and even buy some out so that the scattered holdings would be consolidated in one locality. This task was difficult, laborious, and could be accomplished only through the consolidation scheme.

Another complication followed the conversion of the land by the community to the fixed ownership by individuals in each generation. In former times, large and small families were merged into one, with the result that individuals in each generation enjoyed equal rights to the land. This was not the case now. The family was confined to a fixed boundary, beyond which it could not extend. As the family may increase in number in each generation, the plot of family land remains the same in size, and as each generation inherits.

Other Databases of Interest

- **PsycINFO**
  Index (with partial Full Text) : 1887-
  
  PsycINFO provides citations and abstracts of international journal articles, chapters, books, technical reports and dissertations in psychology and related disciplines.

- **Dissertations & Theses**
E-Korean Studies

The E-Korean Studies Database is a trial initiative aggregating the major Korean subscription databases at one site under one search engine. Coverage includes arts and humanities, social and physical sciences, medicine, and physical education with various types of content, including monographs, periodicals and newspapers, dissertations and research reports, law, classical literature, dictionaries and encyclopedias and video lectures. Includes English, Chinese, Japanese and Korean interfaces. Use with Internet Explorer.
• The Native Hawaiian Health Database

The database includes bibliographic references for: audiovisual materials, books, book chapters, journal articles, conference proceedings, dissertations, government documents, program descriptions, and reports.

• Digital Sanborn Maps, 1867-1970 - Hawaii

Digital access to fire insurance maps from various areas in Hawaii. Users have the ability to easily manipulate the maps, magnify and zoom in on specific sections, and layer maps from different years.
Economist Intelligence Unit (EIU)
ABI/INFORM Global is the premier business and management database providing extensive coverage of North America and the world. Find research on advertising, marketing, economics, human resources, finance, taxation, computers, and more. This ProQuest database indexes about 1,520 journals and includes article full-text for more than 780, many with graphics (full-text available to UH Manoa campus users only). Includes information on 60,000+ companies.
Congressional Research Service (CRS) Reports

Index (with partial Full Text) : 1990- This site aims to provide integrated, searchable access to many of the full-text CRS reports that have been available on the Web since 1990. The Congressional Research Service (CRS) serves as the public policy research arm of Congress, and works exclusively for Members, their committees and staff. CRS does not provide direct public access to the numerous reports it produces each year, although some Members, as well as several non-profit groups, post a select group of the reports on their Web sites.
The CQ Researcher

*Index (with partial Full Text) : (1991:Oct. 25)*- The CQ Researcher explores a single "hot" issue in the news in depth each week. Topics range from social and teen issues to environment, health, education and science and technology. There are 44 reports produced each year including four expanded reports. Every 12,000-word report is written by an experienced journalist and features comments from experts, lawmakers and citizens on all sides of every issue. Numerous charts, graphs and sidebar articles -- plus a pro-con feature, a chronology, lengthy bibliographies and a list of contacts -- round out each report.

Cyber Bullying Searchable Information Center

According to the National Crime Prevention Council, 43% of teens have been the victims of cyber bullying in the past year.

To help parents, educators, and others better understand, prevent, and take action against this growing concern, ebrary is subsidizing a collection of e-books on cyber bullying. Additionally, ebrary employees have uploaded a number of government documents from the Pew Internet & American Life Project, U.S. Department of Justice, and other organizations with DASH! (Data Sharing, Fast) a do-it-yourself e-publishing feature of many ebrary products.
Where can I find statistical data about Hawai‘i and Hawaiians?

- Native Hawaiian Data Book (OHA) (free)
- State of Hawai‘i Data Book (free)
- ProQuest Data Sets (proprietary)

Question 4

I need access to a journal that I can’t find on Westlaw or LexisNexis. The title is “Third World Quarterly.”
E-Journals (SFX)

Start on the Law Library web page.
Add “Third World Quarterly” To Search Box
Results
Other Journal Search Stops

- Check Heinonline if it’s a legal journal. (Not everything is on Westlaw and LexisNexis.)
- Check Hamilton Databases
  - Be sure to check only journals and databases and indexes on the form.
Question 5

- I have questions that I don’t want to bother everyone with, can I meet with you individually?
- Absolutely! Yes!
- Send me an email (rfwoods@hawaii.edu) with a few times that work for you.
More Questions?
